The MCAP Services and Processes

INITIAL ASSESSMENT

We conduct an on-site initial assessment with your business to evaluate the current product, customers, competition, the message delivered to customers, methods you use to deliver your message, networking and partnerships, customer feedback, defining success and measuring it, resources, and work style.

ASSESSMENT REPORT

MCAP will then develop and deliver an Assessment Report for each business. A marketing audit is a comprehensive, systematic, independent and periodic examination of a business' marketing environment, objectives, systems, strategies, and activities in order to determine problem areas and opportunities. We will share this report with you to validate its accuracy.

MARKETING PLAN

MCAP will develop a detailed Marketing Plan that will present a series of opportunities and specific suggestions including product enhancement strategies, strategies to secure new customers, suggest effective ways to position the business in regard to the competitors, develop methods to refine the message, and much more. We will also present specific plans to utilize a variety of tools to effectively deliver your message.
